- 5) To use World Builder, start "\\Dawn of War III\WorldBuilder.exe"
- 6) Don't try to use other steam emulators with this release, as it won't work due to online server protection.

Have fun!

.....

PS. This release is somewhat special, because it only became possible with the help of Voksi, who took care of online server emulation and custom protection checks, and BALDMAN did his job, killed denuvo. Well, actually two denuvo's in one release (yes, World Builder also protected with denuvo!)

PPS. Voksi did great job by creating online server emulator and defeating custom protection checks, check his site <http://revolt.group> and support him, if you like. Don't forget to also visit <http://revolt.group/donovo/>

PPPS. You guys constantly ask me to crack Sniper Elite 4. Even if it has "4" in the name, denuvo used in this game is v3, so better be ready for STEAMPUNKS release any minute :P

PPPPS. If you like my releases and want to help me fight against denuvo - you can send some satoshi's to this Bitcoin address: 15fxay2J19CZeZHGg1xrwhbQLU37RAhwzN
